

Below is an example of how the user experience (UX) and flow for **CareHome Easy** might look in a simple ASCII-style wireframe and flow diagram. This illustrates the primary screens and how an owner/manager of a small care home could navigate the system. The design prioritizes clarity and large, easy-to-click (or tap) buttons for less tech-savvy users.

1) High-Level Flow Diagram (ASCII)

- [A] indicates the user starts at the login page.

- After successful login, they land on the **Main Dashboard**.
 - From the Main Dashboard, they can move to different modules:
 1. **Residents:** Manage resident profiles, care plans, daily notes.
 2. **Staff Scheduling:** Create and view shifts, track attendance, etc.
 3. **Family Communication:** Send updates to families, share photos, handle inbound messages/questions.
 4. **Compliance & Reports:** Generate or view compliance checklists, incident logs, medication records, inspections, etc.
 5. **Settings & Profile:** Manage subscription, user profile, additional staff logins, or system configurations.
-

2) Example ASCII Wireframes

2.1) Login Screen

pgsql  Copy

```
+-----+
|          WELCOME TO CAREHOME EASY          |
+-----+
| Please enter your login details to continue. |
|                                               |
| Username: [_____]                          |
| Password: [*****]                         |
|                                               |
|          [ LOGIN ]          [ FORGOT PASSWORD? ] |
|                                               |
+-----+
| Need help? Call 1-800-CARE-EASY             |
+-----+
```

- Large, easy-to-read fields for username and password.
 - A clear phone number for support (important for less tech-savvy users).
-

2.2) Main Dashboard

pgsql

Copy

```
+-----+
|                                     CAREHOME EASY Dashboard                                     |
+-----+
|  Logged in as: Owner/Manager (John Smith)   |  Current Date: Feb 25, 2025   |
+-----+
|
|  [ Residents ]  [ Staff Scheduling ]  [ Family Communication ]  [ Compliance ]
|
|                                     [ Reports & Analytics ]  [ Settings ]
|
+-----+
| Quick Stats:
| - Total Residents: 12   - Staff on Duty: 3   - Upcoming Renewals: 2
| - Next Inspection: May 10, 2025
+-----+
| Notifications:
| - Medication for Resident #7 running low.
| - Training Certificate expired for Nurse Maria.
+-----+
|                                     [ LOG OUT ]
+-----+
```

- **Large “module buttons”** in the center for easier navigation.
- Quick stats highlight important daily info (residents, staff, compliance reminders).
- Notifications appear at the bottom with short text and potential clickable links.

2.3) Residents Screen (List View)

sql

Copy

```
+-----+
|               RESIDENTS MANAGEMENT               |
+-----+
```

[+ Add New Resident]	[< Back to Dashboard]

Current Residents (12):	
1) Mary Davis (Room 101)	[View / Edit] [Care Plan]
2) John Shepherd (Room 102)	[View / Edit] [Care Plan]
3) Linda Gomez (Room 103)	[View / Edit] [Care Plan]
...	
12) Jack Mercer (Room 110)	[View / Edit] [Care Plan]

- “Add New Resident” button is large and visible.
- Each resident has quick-access buttons to **View/Edit** personal info and jump to their **Care Plan**.

When clicking “View / Edit” or “Care Plan”:

sql

Copy

RESIDENT PROFILE – Mary Davis		

Name: Mary Davis	Age: 78	Room #: 101
Photo: [headshot]	(Optional)	

Current Medications:	Lisinopril (morning), Aspirin (daily)	
Allergies:	None	
Doctor: Dr. Smith,	Next appt: 03/15/25	
Important Notes:	[Hip surgery last year, uses walker]	

[Update Info]	[Daily Notes]	[Family Contacts]

[Save & Return]		

- Large, labeled fields.
- An emphasis on **medications, allergies, upcoming appointments** – critical for elder care.

2.4) Staff Scheduling Screen

pgsql

Copy

```
+-----+
|                STAFF SCHEDULING                |
+-----+
| [ Create New Shift ] [ View Shifts by Week ]      |
| [ View Staff List   ] [ Return to Dashboard ]     |
+-----+
| Upcoming Shifts:                                |
|   - Date: Feb 26, 2025                          |
|   7am-3pm: Nurse Maria (Confirmed)               |
|   7am-3pm: Care Aide John R. (Pending)           |
|   3pm-11pm: Care Aide Sarah T. (Confirmed)       |
|   11pm-7am: Open - [ Assign Staff ]              |
+-----+
| Notifications:                                  |
|   - Staff training certificate expired for Nurse Maria |
|   - Shift coverage needed for weekend (Feb 29 - Mar 2) |
+-----+
```

- Focus on clear shift times and staff statuses (Confirmed, Pending, Open).
- Easy link or button to “Assign Staff” for an open shift or “Create New Shift”.

2.5) Family Communication Screen

pgsql

Copy

```
+-----+
|                FAMILY COMMUNICATIONS                |
+-----+
| [ Send Group Update ] [ Manage Family Contacts ]    |
| [ Auto Messaging Settings ] [ Return to Dashboard ] |
+-----+
| Recent Messages:                                  |
|   - (Feb 24) Email to Davis Family: "Mary had a lovely walk |
+-----+
```

```

|   in the garden today, no concerns to report."   |
| - (Feb 23) Query from Shepherd Family: "Can we schedule a |
|   video call on Friday?" -> [Reply]               |
+-----+
| Automated Updates (Weekly Summaries): ON          |
| - Next summary sends on: Feb 28, 5:00 PM          |
+-----+

```

- Ability to send **group updates** or manage contact preferences (email/SMS).
- A simple messaging interface that aggregates inbound and outbound communications.
- Toggle for automated weekly summaries with time scheduling.

2.6) Compliance & Reports

sql

```

+-----+
|               COMPLIANCE & REPORTS               |
+-----+
| [ Generate Inspection-Ready Report ] [ Incident Log ] |
| [ Medication Administration Summary ] [ Return ]      |
+-----+
| Quick Compliance Alerts:                          |
|   - Fire Drill overdue by 5 days                   |
|   - Staff ratio log needed for next inspection      |
+-----+
| Past Reports:                                      |
|   - Jan 2025 Monthly Report (view/download)         |
|   - Dec 2024 Monthly Report (view/download)         |
|   - ...                                              |
+-----+

```

- **Big, obvious buttons** to generate key compliance or inspection documents.
- The system notifies the user when something critical (like a fire drill or staff ratio requirement) is overdue.
